

Kevin J Kelly – Industry CIO | Operations Executive and Strategic Advisor

Kevin Kelly is a former Fortune 100 Executive and a strategic advisor for Mantissa Group LLC, a strategy consulting firm serving the CIO executive and their extended leadership teams. Kevin is an industry leading expert on wide variety of strategic matters affecting the CIO, operations leaders, and their leadership teams. He provides executive-level technology and management consultancy and advisory services covering organizational and technology **transformation** efforts, large **program management**, **product development**, solution **delivery** and organizational **assessments**.

Kevin's previous experiences at multiple large organizations has resulted in a philosophy of **understanding technology at the executive level** and **driving business results** by developing technology strategies that **support business goals**. He has accomplished this by creating **high performing technical teams** leveraging both internal and external talent.

Among his technical accomplishments include the delivery of large-scale transformation programs and successfully executing large technology initiatives that optimized delivery to the business while modernizing technology. He also brings a wide array of business knowledge spanning business sectors, including life and annuity, manufacturing, and energy with direct accountability to the CEO or Board of Directors. Kevin also comes with a wide variety of technology skillsets including ERP, cloud migrations, mobile workforce solutions, IoT, and telematics for equipment in the field.

Mr. Kelly is a seasoned leader with broad executive experiences across industries and has developed executive credentials via speaking engagements, publications, patents, and various professional affiliations.

Kevin is currently providing management consulting and advisory services for numerous industry segments. His most recent industry experience was as the Chief Information Officer (CIO) at New York Life. He held concurrent responsibilities managing technology development, information technology infrastructure, and business operations within the home healthcare and nursing home insurance markets throughout the United States, totaling \$400M in annual revenue, and over \$1B in reserves. He effectively communicated throughout the organization at all levels to drive the organization's goals and focus on critical outcomes.

Mr. Kelly earned a BS degree in Computer Science, as well as earning his MBA and graduating Summa Cum Laude from at the University of Texas at Austin.
